

## Directions to Whispering Winds Bamboo

### Hana Way

Take the Hana Highway (highway 31) through Hana. Highway 31 turns into Highway 360. Follow the highway for approximately 12 miles after you go through Hana. Enjoy the views and waterfalls along the way. Go past the turn off for parking at Haleakala National Park. Keep your eye out for mile marker 41 and keep going. You will see "Laulima Fruit Stand" on the right side of the road: continue past for around a mile or so. On the right side of the road you will see a bank of mailboxes with the numbers 180 and 156 among others. There is a red mailbox on the end. Turn right on the dirt driveway directly past the mailboxes. Follow the driveway, sticking to the "main" road. The driveway goes from dirt to concrete strips. Follow the 90 degrees bend in the road to the right. You will soon see a "Whispering Winds Bamboo" sign. Follow the driveway onto the property. The first buildings you will see are our shop facilities. Stop, park and prepare for your welcome.

### Back Side

Take the Hana Highway (highway 31) to Haleakala Highway and turn north (up toward the mountain). Go past the Makawao Rd. intersection; the road merges to one lane. Continue to Kula Highway (Highway 37). Go all the way through Kula and keep going. You will see a Chevron gas station, small convenience store, and Grandmas, a local breakfast/lunch restaurant. There is a small "Y" in the road. Keep to the right; it will head down hill. Relax, go slow and enjoy the scenery. Follow this road for an hour or so. The pavement ends and becomes very bumpy for at least 10 miles. When you see "Kaupo Store" on the left side of the road, you are approximately 20 minutes away. We are 1 to 2 miles past mile marker 39. You will finally come around the last cliff and into the forest. Only a short distance away, on the left, is a bank of mailboxes with a red mailbox on the end. They are numbered 180 and 156 among others. There is a dirt driveway before the mailboxes. Turn left and travel up this driveway. Follow the driveway (sticking to the "main" road). The driveway goes from dirt to concrete strips. Follow the 90 degree bend in the road to the right. You will soon see a "Whispering Winds Bamboo" sign. Follow the driveway onto the property. The first buildings you will see are our shop facilities. Stop, park and prepare for your welcome.

### Aloha and Mahalo
